The Midweek Making 'The Main Thing, The Main Thing!'

May 4, 2011

Personal APPLICATION: Saul's Flaws

Saul's developed open flaws seen in his character can serve as a warning to believers today. Once humble, power made him so arrogant that he disobeyed God. The pride that so often accompanies promotion just as frequently masks fear of what others think. Only by remaining humbly dependent on God, can we be safe from the flaws that brought down Israel's first king.

1Samuel 15

SHOUT OUT PRAISE!

"O Lord, thou hast brought up my soul from the grave: thou hast kept me alive, that I should not go down to the pit. 4 Sing unto the Lord, O ye saints of his, and give thanks at the remembrance of his holiness." Psalms 30:3-4

What does the BIBLE say about...

Question: **What is the Proper Way to study the bible?**

Answer: Studying the scripture is hard work. God does not simply tell us to study the bible but to study it and understand it correctly. When studying the bible we must pray and ask the Holy Spirit to impart understanding, for that is one of His FUNCTIONS.

But when he, the spirit of truth, comes, he will guide you into all truth. He will not speak on his own; he will only speak only what he hears, and tell you what is yet to come.", (John 16:13)

If you truly are a Christian, the author of Scripture, the Holy Spirit, dwells inside of you, and wants you to understand what he wrote.

The WORD!

Blessed

BLESSED is the man that walketh not in the counsel of the ungodly, nor standeth in the way of sinners, nor sitteth in the seat of the scornful. But his delight is in the law of the LORD; and in his law doth he meditate day and night.

Psalms 1: 1-2

YOUR HEALTH AWARENESS

Eating fresh fish is the key to getting the most nutrients, as well as avoiding a "fishy" smell after cooking (a sign that the fish wasn't fresh).

The scent should be very light and fresh — it shouldn't smell fishy or bad in any way — a sign that the fish has been sitting out too long.

The flesh should look firm, bright, and clear, and shouldn't be pulling away from the bones.

The skin should be shiny with a bright (not faded or dull) color.
